COVID-19 Statement

As the new management of Alankar, we are taking all the necessary measures to ensure the wellbeing of our staff and guests. Their safety is of paramount importance to us during the global outbreak of Coronavirus (COVID- 19).

We are monitoring the official government advice and the guidelines from Public Health England (PHE). Our staff have been fully briefed and are constantly updated on the ongoing situation.

We take great pride in maintaining the highest standards of cleanliness and hygiene throughout our restaurant and have taken the following additional measures to make our cleaning and hygiene protocols even more rigorous.

1. The Covid-19 NHS QR Code is displayed around the restaurant for our staff and guests to use as outlined by the government via the NHS Covid-19 mobile app.
2. Our public areas, washrooms, all high-volume guest touch point areas including door handles, handrails, tables and reception desks are cleaned using the strongest cleaning and high-grade disinfectant products.
3. All menus, credit card machines and tables are sanitised after each use.
4. All public areas are deep cleaned, as well as sterilised weekly.
5. We have increased the numbers of antibacterial hand sanitisers and they are available in all areas of the restaurant.
